Hi Miranda,

A number of Deschutes issues to discuss. How about setting-up a time with me today for when you are free? I'll forward an email I got from Dan today with some interesting items.

Hi Dave,

I also got this additional feedback from Chris:

* As costs come together, you may want to identify resources needed to complete TMDLs that Ecology did not develop, (b) (5) (b) (5)

* As the TDs come together, consider a stakeholder participation support task.

Subject: FW: Potential contractor assistance for Deschutes TMDL

Hi Dave,

Here is the email you requested. Chris may also have ideas of things we could add to the list, or change.

Thanks!

Subject: Potential contractor assistance for Deschutes TMDL

Hi Jayne,

As we discussed, here is my rough estimate for the types of work we would need contractor assistance for, if we end up disapproving portions of the Deschutes TMDL. I'm copying Chris so he can verify/elaborate on this list as needed. Let me know if you need anything else!

Work that EPA could do if staff time/resources allowed (but I'm including it as a contractor request for now):

(b) (5)

Work that we would need contractor assistance for (we also may or may not get cooperation/assistance from the state in completing these tasks):

(b) (5)

(b) (5)

Thanks,

Miranda Hodgkiss
